Nurturing the Soul – Insights on the Sacred Journey

Context and Process, Spiritual Integrfsation, Souful Application

To Know Oneself Profoundly - To Express the Soul Wholly

Dear Cohearts, Fellow Journeyers, Heart Warriors, Light Workers,

Spirituality might normally be considered 'The Way of the Priest, Sage, Mage, Magi on the Archetypal Cross. Yet it is also the process of Being the Divine Child at the center of the cross, soulfully expressing the Spiritual Warrior, Divine King, and Companion.
Soul, for me is Who we are; we are its expression in the world of emotional, mental form. It isn't the religious concept of having a soul. It expresses itSelf through its instruments.

Spiritual Insights on Transformative Service

Dear Cohearts, Fellow Journeyers, Heart Warriors, Light Workers,

Transformative Service means growing and serving, serving and growing – if the second hand of a watch represents service with the hands, 60 seconds there minute hand representing the loving heart moves a minute. And in turn 60 minutes of loving service and the mind moves one hour in wisdom. The aspiration is to fully serve in every Domain of Influence. May we grow together in our capacity to lovingly serve while growing within.

Introduction To Transformative Service

In the previous sections there have been insights into the: the context of the soul, who we are, our gifts and temperaments, what our unique potential is in every domain of our lives, our life purpose and mission. This final section proffers insights on the process of living our lives in loving service - to our soul, those we know and love, those we don't know and care for.

We look at the Loving Service as a spiritual path, in fact as the inevitable outcome of all spiritual paths. Service is the journey of divine expression. Through service we garner love, gain wisdom and demonstrate mastery through living the vision.
